

## **The Fair That Adds Value to Plastic Wastes**

### **RePlast Eurasia Plastic Recycling Technologies and Raw Materials Fair**

**On May 2-4, 2024, at Tüyap Fair and Congress Center**

*As the first fair organized in Türkiye on plastic recycling, RePlast Eurasia, Plastics Recycling Technologies and Raw Materials Fair will be held by Tüyap Tüm Fuarçılık Yapım A.Ş. on May 2-4, 2024, at Tüyap Fair and Congress Center in Istanbul, in collaboration with PAGÇEV Green Recycling and Technology Association. Companies that produce products and services for the steps required to recycle plastic and add value to life will gather with sector professionals.*

#### **Candidate for becoming the Leading Fair in the Turkish Plastics Recycling Industry**

Turkish plastics recycling industry not only provides employment directly to nearly 400,000 people, but also raises that number to nearly 1,2 million people, including itself and the industries it supplies for.

Achieving an annual growth rate of nearly 8%, the industry attracts attention by being one of the industries that employs the highest number of young population. As part of this giant family, RePlast Eurasia Fair runs as a candidate for becoming the leading fair in the industry, which will be held for the first time in 2024.

#### **Plastics Recycling Technologies and Raw Materials Fair Shapes the Sustainable Future!**

Companies serving in all sorting, washing and cleaning, grinding, melting and extrusion, reprocessing and production, and innovation stages of plastic wastes, as part of the recycling process, will participate in the fair as exhibitors and will meet under the same roof a visitor profile with a wide of sectoral distribution, from packaging industry to whiteware, from information technologies to banking industry, and from glass industry to furniture sector.

The latest developments on recycling technologies and raw materials for a sustainable future will be presented to the sector professionals on a single platform.

#### **Information Sharing Platform for the Industry: RePlast Eurasia Fair**

Conferences will also be held as part of the fair, where products and services in the field of plastics recycling industry will be exhibited and speakers who are experts in their fields will participate.

Sector professionals will get the opportunity to enhance their knowledge and shape their plans for the future during the sessions that will be shaped around a wide range of topics like current plastics recycling, technological developments and legal practices awaiting the industry in the future, sustainability, and circular economy.

The fair that will be held on May 2-4, 2024, will shed light on the industry.
